Ownership & Management

The company is a SPECIALIZED/MAJOR category rated contractor on Nigeria Upstream Petroleum Regulatory Commission (NUPRC) and duly registered on Nipex JQS with 100% procurement recognition level and is headed by a dynamic, motivated and efficient team currently led by our Managing Director.

Approach

DENL sees teamwork on every project as the key success ingredient and are responsible for creating this environment.

The overall project manager is duty-bound in ensuring effective communication to all stakeholders and at all levels. Teams are built by combining the strengths of the individual members and refining skills to meet and exceed the Client's expectations. We also believe in a hands-on approach on all our projects. This is why a Director of the firm will always be in control of the key functions on a project. DENL is equipped with the latest technology and has the necessary staff and resources to ensure the best Professional service is provided at all times.

DENL employs the services of qualified engineering and management personnel in every area of its operations. The company's personnel are graduates from universities and institutions of related fields. They have undergone basic training and are familiar with various advanced software and procedures

Services

Oilfield Production Support

Delivering reliable, efficient, and safe solutions across every stage of production operations.

At Desac Energy, we offer comprehensive production support services that enable oil and gas operators to maximize efficiency, reduce downtime, and maintain safe, highperformance operations.

Whether you're managing early production, flowback, or field interventions, our experienced team and fleet of modern equipment are ready to meet your field challenges.

OILFIELD PRODUCTION SUPPORT

- **Well Testing Services**
- **Flowback Operations**
